Enrolled in 2024
- Bareilly College, Bareilly
Bachelor of Computer Applications
Enrolled in 2021
Completed in 2024
- S. S. G. I. C
12 Grade (State Board)
Completed in 2021

About Me

Enthusiastic backend developer skilled in Node.js, Express, MongoDB, MySQL, and JavaScript, with a strong grasp of DSA. Solved 180+ LeetCode problems. Passionate about learning and problem-solving, I strive to build efficient and scalable solutions.

Projects

● CodeMasteryZone

A platform for coding enthusiasts to solve problems in an interactive environment with a built-in code editor and automated judging system.

Key responsibilities:

- Developed an interactive online code editor with syntax highlighting and real-time feedback.
- Implemented a secure backend for code execution using RESTful APIs.
- Built an automated judging system to evaluate code submissions against multiple test cases.
- Optimized performance and scalability for concurrent user handling.
- Integrated user authentication and progress tracking features for personalized experiences.

● Resume Builder

A platform for coding enthusiasts to solve problems in an interactive environment with a built-in code editor and automated judging system.

Key responsibilities:

- Developed a secure backend with user authentication using JWT and password recovery via email verification.
- Implemented resume upload and management with integration into Cloudinary for cloud storage.
- Designed RESTful APIs for user profile management and resume handling with robust validation.

Achievements

- Solved 180+ problems on LeetCode..
- 2 times Completed Masai Speaking Marathon
